

New Grubb Residence Damaged by Blast

I thought those Japs had started bombing us over here, Henry Grubb, well-known meat

dealer, said Monday morning as he hurriedly surveyed the burned and smoke blackened walls of what is to be the den of his large new home at the corner of Carson st. and Beech ave.

The damage was caused when a wire brush, being scraped over the Philippine mahogany wainscoting by Painter F. G. Bierlein of Los Angeles came in contact with a wall socket. The power was on and the resultant flash ignited some highly inflammable paint-remover being used to clean the woodwork.

Police Radio In Service

Placed in service last Sunday, Radio KRMF, operated by the Torrance police department on 39,100 kilocycles, at once began proving its value. The short wave transmitter immediately began to send out and receive information from officers and firemen who have sets in their squad cars and scout truck.

Exhaustive field tests of the equipment, operating on 50 watts, have revealed no "dead spots" in the Torrance area where reception and sending is poor. Even under high tension power lines, police have been able to contact headquarters, Police Chief John Stroh said. Hourly call signals are sent over the short-wave equipment by the desk officer at the police station, who also keeps a "log" on all radio calls received and dispatched.

New Cuban Dance Seen in "Weekend In Havana" Film

"Two hundred gorgeous feminine 'Zombies' and Carmen Miranda in a voodoo jive..." That is Dance Director Harry Pan's description of one of the big dance numbers he prepared for the new Technicolor musical, "Week-End in Havana" which starts Sunday at the Plaza theatre in Hawthorne.

The music and words for the number were written by tunesmiths Mack Gordon and Harry Warren around a Cuban Jungle dance based on Voodoo rites imported from Africa. The tune and dance are called the "Nango" (pronounced Nyango).

Pan, who rehearsed the dance with chorus of 200 feminine dancers, has promised that it outdoes anything previously seen on the screen in the way of "Le Jazz Hot." Alice Faye, Carmen Miranda, John Payne and Cesar Romero have the top roles of "Week-End in Havana."

Mr. and Mrs. Fred Bever, accompanied by Mr. and Mrs. E. M. Mosher and Mrs. and Mrs. A. Shyer, recently enjoyed a dinner and theatre party in Los Angeles.

EASY now to save vitamins. Use the vitamin-saving features of a CP gas range. THREE OF THE WAYS A CP GAS RANGE WILL HELP YOU SAVE VITAMINS. 1. VITAMIN-SAVING BURNERS. Simmer settings make possible the "waterless" cooking of vegetables, recommended by vitamin authorities. 2. VITAMIN-SAVING BROILER. No preheating necessary. Meats contain more vitamin-rich juices, because cold-start broiling enables you to broil the portion nearest the flame, without overcooking the under side. 3. VITAMIN-SAVING OVEN. CP controlled heat enables you to roast meats with minimum of water, and yet avoid drying-out. Low temperature CP roasting also enables you to reduce meat shrinkage as much as 20%. WHAT EVERY WOMAN SHOULD KNOW ABOUT VITAMIN-SAVING. Use little water in cooking. Cook vegetables for the shortest possible time. Cover usually to keep air out. Avoid unnecessary stirring of vegetables. Don't tip in baking soda to brighten food colors. Don't throw away vegetable liquid - use it in soups or cream sauces. 7 Start vegetables in boiling water. 8 Keep foods as fresh as possible - use dependable automatic refrigeration. 9 Serve plenty of green vegetables. 10 Serve foods soon after cooking. 11 Broiling is preferable to frying to retain vitamins. 12 Low-temperature roasting saves vitamins, minerals.
